

Colourful Audio System

All-In-One TRUE ANALOG HIFI STEREO SYSTEM

In the box:

- **Debut Carbon EVO**
famous best buy turntable
- **Speaker Box 5 S2**
2-way monitor speaker
- **MaiA S3**
HiFi amplifier incl. streaming
- **Connect it LS S2 3m**
high quality speaker cable
- **Damp it**
special damping feet

Features:

- 6 different satin finishes
- High quality hand painted MDF
- 2x 3m speaker cable with gold plated plugs
- Speaker grills included
- Dustcover included
- Handmade in Europe!

NO STEREO, NO HIFI

Standard all-in-one systems with speaker, amplifier, and streaming in one cabinet are **MONO**.

DIGITALLY ENHANCED

A small cabinet in plastic does not allow bass. The sound is enhanced by electronics like ketchup to the food.

Typical „wireless“ streaming or BT speaker

IT IS OK FOR BACKGROUND MUSIC

But **NOT OK** when you want to enjoy music like a **Live-Concert!** For that you need the illusion of a sound stage and also a linear frequency response to hear the instruments like in nature!

For this you need a **STEREO HIFI SYSTEM** with **2 SPEAKERS**.

THE COLOURFUL AUDIO SYSTEM OFFERS IT ALL

- **TRUE** HiFi Stereo
- **ANALOG** warm sound experience
- **STREAMING** wireless high resolution Bluetooth
- **CONNECTIVITY** to TV, radio, CD player, etc.
- **TIMELESS DESIGN** in beautiful colours
- **25-YEARS** guaranteed spare part availability
- **HANDMADE IN EUROPE**

Debut Carbon EVO

The Debut Carbon EVO focuses on the core aspects that make a turntable sound great. Technically correct design - expert craftsmanship - handmade in the EU. This turntable is built to last you a lifetime!

Additional features that might negatively impact the overall audio performance or longevity are left out. At that level of sonic performance, it is always better to opt for a separate phono stage. That's why we included our integrated amplifier MaiA S3 in this set.

The heavy and solid MDF plinth with new 8x hand-painted finishes look and feel better than ever before. They have been carefully chosen to reflect current trends and customer fashions.

The new platter, motor-suspension, speed control and height-adjustable feet are small details when taken individually but as a whole they add up and result in a new Debut that does not only sound better than before, but also looks and feels better and more impressive than any Debut ever did, by a long shot.

MaiA S3

The MaiA (My Audio Integrated Amplifier) S3 is the all in one solution for your hifi system. With its 8 inputs you are ready for any kind of source device.

It offers a phono RCA input for MM, MI or high output MC cartridges as well as three line RCA inputs for e.g. the CD Box S3. You can also connect digital sources like your TV or a CD transport via the coax or optical S/PDIF inputs and use the MaiA S3 DAC with a quality up to 24bit and 192kHz. If you want to stream your music from your mobile phone, tablet or pc you can simply connect to the high definition AptX HD capable Bluetooth 5.0 input with a sound quality up to 24-bit & 48kHz which is better than the standard CD quality.

Speaker Box 5 S2

The Speaker Box 5 S2 is characterized by its spacious and detailed sound. A 25 mm silk dome tweeter delivers cristal clear highs, the 130 mm fiberglass cone gives full-bodied and lush mids as well as punchy and tight bass.

The Speaker Box 5 S2 is manufactured only with the highest quality materials and to 100% in Europe. Only high quality materials were used when Speaker Box 5 S2 was created. A very special, resistant and ecofriendly glue has been used to hold the cabinet together and to avoid any leakage.

Connect it LS S2 & Damp it

Connect it LS S2 is a high quality speaker cable, consisting of four 0,96mm² Solid Core conductors with circular array geometry. Each of the four conductors consists of high-purity oxygen free copper (HP-OFC).

Damp it are particularly suitable for bookshelf speakers & prevent the transmission of structure-borne sound from subsonics up to 500 Hz. The effect is similar to electronic subsonic filters, but without their sonic disadvantages.

Debut Carbon EVO

- Best Buy Audiophile Turntable
- 8,6" carbon tonearm
- Motor suspension
- Height adjustable metal feet
- 1,7kg steel platter with TPE damping
- Electronic speed control and speed switching

Damp it

- Special rubber feet for optimal isolation of the the speaker from the turntable
- A MUST when turntable and speaker are on the same level

Connect it LS S2

- 2x 3m high grade speaker cable with golden plated banana connectors
- Solid core technology
- High purity oxygen-free copper (HP-OFC)
- Circular array geometry

MaiA S3

- Micro HiFi amplifier
- Headphone amplifier
- 8 inputs (5x analog, 3x digital & 1x wireless BT)
- Phono MM, MI + high output MC input
- Analogue volume control with motor driven potentiometer
- Cirrus Logic CS4344 24bit/192kHz Multi-bit Delta Sigma
- S/PDIF inputs support up to 24bit and 192kHz
- Bluetooth 5.0 - aptX HD capable (24-bit, up to 48kHz)
- Variable output for subwoofer or second zone amp
- Premium aluminium casework

Speaker Box 5 S2

- Acoustically transparent speaker grill with magnetic attachment included
- Audiophile bass-reflex design
- Sophisticated internal bracing
- Ultra stiff non resonating MDF cabinet
- Audiophile direct-wired crossover - no PCB!
- Lead free solder
- Ecofriendly glue from Kleiberit

ALL HANDMADE IN EUROPE

Debut Carbon EVO:

Speed: 33, 45/(78) (electronic speed change)

Included accessories: 15V DC / 0,8A power supply, dust cover, 78 RPM round belt, 7" single adapter

Power consumption: 4W / 0W standby

Dimensions: 415 x 113 x 320mm (WxHxD)

Dustcover open: 415 x 365 x 405mm (WxHxD)

Weight: 6 kg net

MaiA S3:

Power output: 2x 23W / 40W at 8 / 4ohms (1% THD)

Standby power consumption: < 0,5W

Included accessories: Remote control, power supply

Dimensions WxHxD: 206x55x153

Weight: 1070 g without power supply

Speaker Box S2:

Nominal impedance: 8 Ohm

Dimensions: 160 x 271 x 215mm (WxHxD)

Included accessories: Speaker grills (black)

Weight: 4,9 kg
