

MaiA DS3

Stereo integrated amplifier with 9 inputs

- **NEW** Powerful 140 watts per channel at 4 ohms
- **NEW** Magnetic side panels available separately
- **NEW** PCM 1795DB 32bit/192kHz Delta-Sigma DAC
- **NEW** BT 5.0 receiver with aptX, aptX HD, A2DP profile
- 9 different analog & digital inputs
- Sub output & variable output
- Phono input - MM & MC capable
- Dual mono design
- XMOS asynchronous USB 24bit/192kHz
- DSD capability (DSD64, DSD128; DSD256)
- Headphone output 2 x 430mW at 32ohm (1%THD)
- Trigger in- & output
- Heavy aluminium casing protects against interference
- Remote control included
- Available in silver or black
- Made in Europe

Colour options:  

Power output: 2x 80W/140W at 8 ohms/4 ohms (1%THD)
Frequency response (20Hz-20kHz): \pm 0,3dB at 20kHz
SNR: 97dB (105 dB - ,A' weighted) at 1kHz
THD: < 0,01% at 10W / 8 ohms
Headphone amp output: 2x 430mW at 32 ohms (1%THD)
Line level inputs: 3 pair RCA (sensitivity: 860 mV)
Phono input: 1 pair RCA (for MM, MI and MC cartridges)
Phono input sensitivity: MM 47k ohms / MC 100 ohms
Phono input gain: MM 40dB / MC 60dB
USB input: USB Audio Class 2 (requires USB 2.0 or higher)
PCM sample rates: up to 192kHz / 24 bit
DSD support: DSD64 , DSD128, DSD256
BT version & codec: BT 5.0; aptX, aptX HD, A2DP profile
Trigger In/Out: 12V on/off detector
Outboard power supply: 36V/5,5A DC
Power consumption: <0.5 W standby
Dimensions: 206 x 71 x 240 (252 with sockets) mm
Weight: 1850g without power supply

Often overlooked, but never overheard

The MaiA DS3 (My audio integrated Amplifier) is our new reworked all-in-one compact amplifier solution. It combines both, analogue and digital inputs to suit all different sources. With its 140 watts per channel at 4 ohms you can easily power your favourite speakers. The whole electronics are packed into a beautiful machined full aluminium case which protects it against outer interferences. The MaiA DS3 is handmade in Europe and available in an either black or silver finish.

Versatile input & output options

The MaiA DS3 offers you the following inputs:

- 1x Phono (MM or MC)
- 3x Line (CD player, tuner, etc.)
- 2x S/PDIF Optical
- 1x S/PDIF Coax
- 1x USB
- 1x Bluetooth 5.0 AptX HD

Use your favourite headphones to privately enjoy your favourite tracks or connect your speakers with 4 mm banana plugs, spades or naked wires to the gold-plated speaker outputs. The variable RCA outputs also allows you to include a subwoofer or another power amplifier in your setup. Use the fixed output to distribute the audio signal to another device unaffected by the volume control to feed an audio recorder, for example.

With the supplied remote control, you are able to analogue change the volume with the motor driven potentiometer and switch your input.

Designed & handmade in Europe

The new MaiA DS3 is carefully designed and handmade in Europe. Our goal is to develop a technically flawless device in a housing that is only as big as necessary to safe raw materials. Due to the timeless design & rigid aluminium casework, the MaiA DS3 is built for eternity.

With high-quality materials and components, but also well-thought-out design, we want to be a pioneer in the industry.
