

PLAY 'EM ALL!

Official Metallica Limited Edition Turntable

When James, Lars, Kirk, and Robert reached out to us and chose Pro-Ject as their partner for a Metallica-themed record player, we said:

"F * CK YEAH!"

Pro-Ject Audio Systems is proud to announce the Metallica turntable.

The Metallica turntable continues our tradition of collaborations with great artists.

The Metallica Limited Edition Turntable including cartridge is available for MSRP 1.499 € (incl. VAT) at Pro-Ject dealers July 2022.

For further information please read the following pages.

And vinyl for all...

Heavy glass platter

- A high mass non resonant glass platter ensures tight and accurate playback and stable playback speeds. The transparency gives a view to the stunning, unique plinth, high quality parts omitting cheap, plastic parts.

Aluminium sub platter, pulley and feet

- The aluminum sub platter, our most sought after aftermarket upgrade, comes standard on the Metallica Limited model. Machined to the highest tolerances both the aluminium pulley and sub-platter offer increased mass to the drive system. Higher mass, means less resonances and higher damping. The height adjustable feet allow exact level positioning regardless of the surface.

Master of Vinyl

- The surface of the deck has a polished mirror finish that excentuates the Metallica logo and gives the player a very distinctive look. The s-shaped tonearm with an SME-type detachable headshell comes fitted with a Pick-it S2 C conorde cartridge. Both tracking force and antiskating are adjustable for future upgrades.

The history of Pro-Ject

Pro-Ject was founded in 1991, during the onslaught of the compact disc and CD players, with the mission to offer the best analogue experience for a reasonable price. In a time where the digital audio media had been on the rise, and vinyl was declared as outdated and dead, Heinz Lichtenegger kept his belief in the simple but best way to enjoy music – turntables.

We aim to get as many people as possible into the wonderful hobby that is HiFi audio and to deliver a real stereo experience for the lowest cost possible. The best way to start is with a proper turntable. We want to give the customers back the right to choose what they need, without overblowing our products with unnecessary features.

Here at Pro-Ject, we strive to create astonishing products with impeccable value. We only use the best components for the price and manufacture our handmade goods solely in Europe. With an eye for future trends, we are always trying to fit the needs of the market.

Our passion and drive have been recognized by many acclaimed magazines. We have won multiple awards from the renowned HiFi press for our turntables and electronics over the years. Our products have also been used in countless TV shows and movies.

With cutting edge technologies and machines, we can create visually pleasing products without losing the eye for the finest details. We closely work with partners from the music industry, such as Universal Music Group (The Beatles), Third Man Records (Jack White), The Rolling Stones, Parov Stelar, or the world-famous Hard Rock Café. Many industry leaders also cooperate with us, like the Vienna Philharmonic Orchestra or Ortofon for their jubilees. With these partners, we create special limited edition products to give our customers even more choices.
