

Product Announcement

Pro-Ject Juke Box E1

Just add speakers – or get the Juke Box E1 SET for true stereo convenience.

Didcot, Oxfordshire – 22nd February 2024

Since 2017 the Juke Box E has delighted audio fans around the world as an ideal starter system, or a convenient, compact second-room system, that brings together vinyl playback, Bluetooth streaming and all the necessary amplification into an elegant turntable chassis. Today, Henley Audio are delighted to announce the immediate UK availability of the Juke Box E1 (£599.00 SRP) – a next-generation take on the hugely popular design.

The Juke Box E1 takes the original Juke Box E philosophy and assimilates it into an even more convenient and stylish form. Directly inspired by the popular E1 design, the Juke Box E1 now boasts a new tonearm, a sub-platter drive system and more convenient switching between 33 and 45 RPM speeds.

Features of the Juke Box E1 include:

- ✓ Turntable design inspired by the popular Pro-Ject E1 model
- ✓ Plug-and-play turntable set-up
- ✓ Accurate speed with automatic switching between 33 and 45rpm
- ✓ Top-mounted high-contrast display
- ✓ Built-in Bluetooth receiver and additional Line Level input for traditional sources
- ✓ 50W per-channel Class D integrated amplifier built-in
- ✓ Line Level output for the turntable source
- ✓ Available as a complete SET with matching Pro-Ject Speaker Box 5 speakers and accessories
- ✓ Handmade in Europe

Pro-Ject Juke Box E1: £599.00 (UK SRP)

The Juke Box E1 is available in the UK immediately in Black, White, Red and Walnut finish.

The Juke Box E1 SET is available in the UK immediately in Black, White and Red finish.

Juke Box E1 in detail

The Juke Box E1 is a vinyl record player with integrated phono stage, a Bluetooth receiver, a pre-amplifier, and a power amplifier all in one stylish, compact chassis. Requiring only a set of speakers to make a complete hi-fi system, the performance and level of convenience on offer are unprecedented for the price.

The record player itself is based on the popular Pro-Ject E1 design, which effortlessly consolidates premium elements into an elegant and intuitive whole. From the CNC-machined wood chassis, through the aluminium tonearm and on to the reputable Ortofon OM 5E cartridge, every part of the design is intended to deliver high-quality sound.

As well as their mastery of analogue products, Pro-Ject are also respected worldwide for their compact electronics range, which has helped them to keep the Juke Box E1 sleek and stylish while integrating a powerful 50W per-channel Class D amplifier inside. The amplifier features a built-in phono stage for the turntable input, a high-quality Bluetooth receiver and an additional input for traditional line-level sources.

If you worry that hi-fi systems, and particularly turntables, might be complicated to set up, Pro-Ject is here to allay your fears. Simply attach the Juke Box E1's drive belt to the DC motor and sub-platter, install the anti-resonant ABS polymer main platter, plug in the power cable, and your work is done. The tonearm comes pre-set and balanced, ready for perfect playback from the word go.

Operation is simple thanks to the volume and input information shown on the display and the intuitive turntable speed selector, while the 32-step digital potentiometer – with added push function for switching inputs – allows you to set playback at exactly your desired volume. For times when the Juke Box E1 is out of reach, the supplied remote control helps with switching inputs and adjusting volume, as well as accessing more sophisticated controls including Bass and Treble adjustment alongside a Loudness boost.

The Juke Box E1 has been made to bring the analogue experience to more music lovers than ever before. Its reassuringly solid build, premium components, and the reassurance that it is handmade by skilled workers in mainland Europe combine into a product that looks at home in any listening space. Available in four high-quality finishes, supplied with a removable dust cover and all the other accessories you will need for set-up, get into hi-fi stereo sound today with Pro-Ject and the Juke Box E1!

Juke Box E1 SET

For those looking for a complete system in one box, while still boasting the guarantee of high-quality musical enjoyment, the Juke Box E1 SET is also available. Included with the Juke Box E1 are a pair of Pro-Ject's own Speaker Box 5 speakers in a matching finish, a solid-core loudspeaker cable, and isolation feet for the speakers.

The set works together to form a perfect, complete system, which is easy to accommodate and a joy to experience.

About Pro-Ject Audio Systems

Pro-Ject Audio Systems are widely recognised as one of the finest turntable manufacturers in the world. Their mission is simply to produce the best sounding analogue components at the most competitive prices possible. The current range spans a wide variety of price points, with a variety of products targeted to key demographics or to accommodate any of the modern listener's unique requirements.

Based in the Austrian countryside, Pro-Ject Audio Systems use specialised manufacturing partners in mainland Europe to produce their premium products.

About Henley Audio

Henley Audio has been importing and distributing industry-leading hi-fi equipment to the UK and Ireland since 1997. With a passion for great sound and a firm focus on brand integrity, we work to deliver excellence in both product and service.

Formed as the result of a management buy-out of Ortofon UK, Henley Designs Ltd. (trading as Henley Audio) operates in-house sales, marketing, service, support, and warehouse teams in order to offer the full turn-key solution for suppliers. The brands we represent are not only highly regarded in their own right, but they also share a symbiotic relationship with other brands in our portfolio.
