

Event Announcement

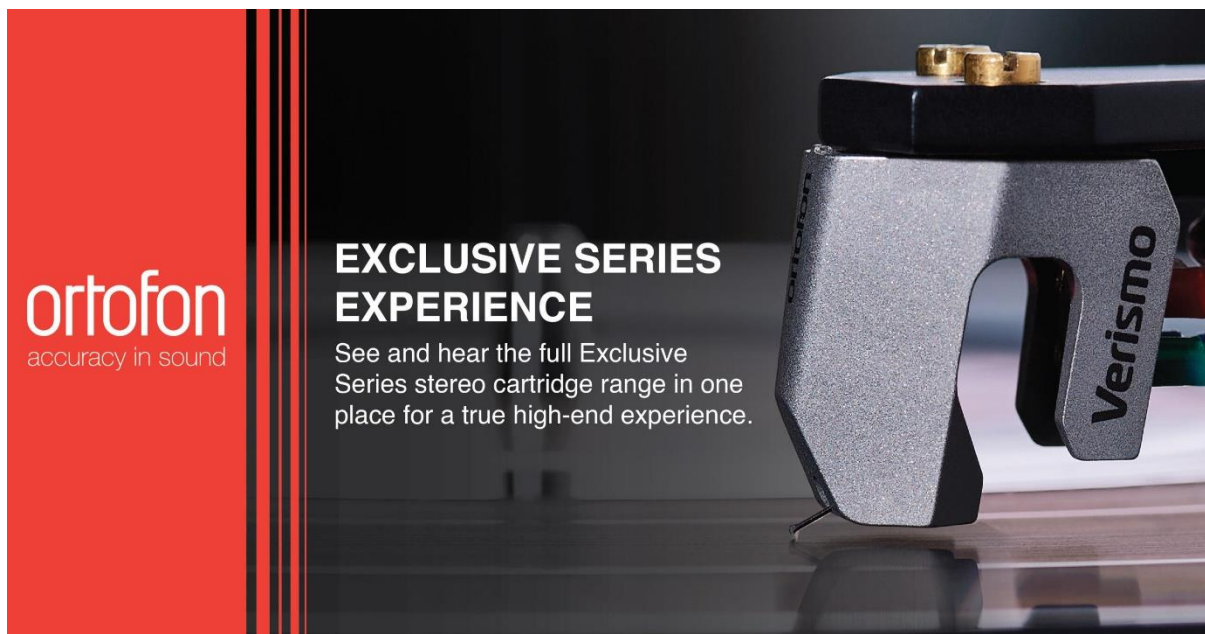

Exclusive Series Experience Tour

Experience the complete Exclusive Series stereo cartridge range together for the first time.

Didcot, Oxfordshire – 28th March 2024

Henley Audio are delighted to announce they are once-more taking the Ortofon cartridge range on tour across the UK. First starting in 2017, these popular events have been the ideal opportunity for vinyl fans to narrow down the right cartridge for their system – but for the 2024 tour there is something more special and unique on offer.

The Exclusive Series Experience Tour will bring together, for the first time in the UK, a series of events that will allow visitors to directly experience the full Exclusive Series stereo cartridge range. Consisting of the MC Windfeld Ti (£4,399.00 SRP), Xpression (£4,650.00), MC Verismo (£5,749.00 SRP) and MC Diamond (£7,349.00 SRP), Ortofon's Exclusive Series boasts some of the finest and most impressive moving coil cartridges available anywhere in the world.

During the events, visitors will learn more about Ortofon – the world's oldest and most respected manufacturer of phono pick-up cartridges – and the advanced technologies that go into making an Exclusive Series cartridge. This will all be delivered through an engaging presentation that allows the cartridge to communicate their strengths through the music they produce, and after the main presentation there will also be an opportunity to talk with analogue experts about specific questions you may have.

The Exclusive Series Experience Tour is open to all, but we recommend registering your interest with your preferred venue, to guarantee you do not miss any of the presentation. The audio system for each event will be chosen specially by the host retailer, but all will feature a Henley Audio analogue front-end, typically consisting of the E.A.T. Forte S turntable and an Ortofon ST-80 SE step-up transformer.

The Exclusive Series Experience Tour will visit:

Friday April 5 th :	Doug Brady HiFi (Warrington)
Friday April 19 th :	Home Media (Maidstone)
Friday April 25 th (PM):	Yorkshire AV (Whitley (near Goole))
Saturday April 26 th :	Yorkshire AV (Whitley (near Goole))
Friday June 14 th :	Martins Hi-Fi (Norwich)

Further dates will be added throughout the rest of 2024.

ortofon
accuracy in sound

About Ortofon

Ortofon is the world's oldest and most experienced manufacturer of hi-fi pick-up cartridges. From humble beginnings in 1918, Ortofon is a proud Danish company that has grown to become a micro-mechanical powerhouse. Their core principles of responsibly sourced high-end materials, meticulous design and production processes, pristine working conditions and superlative attention to detail are evident in every single product they make.

From the introductory moving magnet OM and 2M ranges, through the Quintet and Cadenza Moving Coil series, all the way up to the Exclusive high-end models like the stunning MC Diamond cartridge, Ortofon are devoted to offering true 'accuracy in sound'.

About Henley Audio

Henley Audio has been importing and distributing industry-leading hi-fi equipment to the UK and Ireland since 1997. With a passion for great sound and a firm focus on brand integrity, we work to deliver excellence in both product and service.

Formed as the result of a management buy-out of Ortofon UK, Henley Designs Ltd. (trading as Henley Audio) operates in-house sales, marketing, service, support, and warehouse teams in order to offer the full turn-key solution for suppliers. The brands we represent are not only highly regarded in their own right, but they also share a symbiotic relationship with other brands in our portfolio.
