FOR IMMEDIATE RELEASE

Klipsch Upgrades Award-Winning Reference Premiere Speakers

INDIANAPOLIS, IND. (June 1, 2022) — Klipsch[®], a leading premium global audio company, is pleased to announce the debut of its new Reference™ Premiere series speakers. The all-new line is an enhanced version of the company's award-winning Reference Premiere series of speakers, which is also its most award-winning series of all time. Now in its third generation, the new Reference Premiere speakers feature the most impactful upgrades in the series' history, including the latest technological audio advancements, premium materials, and dramatic cosmetic details.

The new series uses new, larger proprietary Tractrix[®] horn technology to improve high-frequency response and extension, while enhancing imaging and dynamics. Klipsch signature copper Cerametallic™ woofers with aluminum Faraday rings and Tractrix ports provide powerful low frequencies while minimizing distortion and maximizing efficiency. An exclusive Linear Travel Suspension (LTS) titanium tweeter maximizes dynamics, delivering detailed performances.

New premium materials and dramatic design features used in the Klipsch Reference Premiere series are the epitome of modern elegance. The speakers are available in two furniture-grade wood finishes – ebony and walnut. Sleek cabinet design details exude refinement with enhanced cabinet bracing, aluminum binding posts, cast aluminum feet, and discrete Dolby Atmos connections that allow for easy and refined elevation speaker integration. Signature Klipsch copper trim rings accentuate the tweeter and woofer, which can also be concealed by sturdy yet flexible magnetic grilles.

The 11 new Klipsch Reference Premiere series consists of:

- Four floorstanding towers (RP-8060FA II Dolby Atmos[®] enabled, RP-8000F II, RP-6000F II and RP-5000F II)
- Two bookshelf speakers (RP-600M II and RP-500M II)
- Three center channel speakers (RP-504C II, RP-500C II and RP-404C II)
- Two surround speakers (RP-502S II and the innovative, dual-purpose RP-500SA II that functions as a Dolby Atmos elevation speaker or a rear/side wall-mountable surround).

The speakers are available now at select authorized retailers.

###

About Klipsch Audio

In 1946 Paul W. Klipsch, inventor, acoustics pioneer and maverick, founded Klipsch Audio with the sole purpose of bringing the power, detail and emotion of the live music experience into his living room. Through the use of highly efficient speaker designs, handcrafted cabinetry and a thirst for real engineering breakthroughs – Klipsch, the great American loudspeaker company, was born in Hope, AR. Today, our diverse range of quality audio products includes speakers and headphones for almost any consumer and professional application – including cinema, whole-house, wireless, home theater and portable offerings. Honoring our founder’s legacy, Klipsch continues to be the legendary high-performance brand of choice for audiophiles and aficionados around the world. We are the Keepers of the Sound®. Klipsch Group, Inc. is a VOXX International Company (NASDAQ: VOXX).

Klipsch®, Keepers of the Sound®, and Tractrix are trademarks of Klipsch Group, Inc., registered in the U.S. and other countries. Reference™ is a trademark of Klipsch Group, Inc.
